- Tazewell County: 1 male 90s
- Will County: 1 male 90s
- Williamson County: 1 female 70s, 1 male 70s

Currently, IDPH is reporting a total of 279,114 cases, including 8,508 deaths, in 102 counties in Illinois. The age of cases ranges from younger than one to older than 100 years. The preliminary seven-day statewide positivity for cases as a percent of total test from September 16 – September 22 is 3.5%. Within the past 24 hours, laboratories have reported 46,391 specimens for a total of 5,231,607. As of last night, 1,563 people in Illinois were reported to be in the hospital with COVID-19. Of those, 351 patients were in the ICU and 144 patients with COVID-19 were on ventilators.

Following guidance from the Centers for Disease Control and Prevention, IDPH is now reporting separately both confirmed and probable cases and deaths on its [website](#). Reporting probable cases will help show the potential burden of COVID-19 illness and efficacy of population-based non-pharmaceutical interventions. IDPH will update these data once a week.

*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email dph.sick@illinois.gov.
