Currently, IDPH is reporting a total of 1,134,231 cases, including 19,375 deaths, in 102 counties in Illinois. The age of cases ranges from younger than one to older than 100 years. Within the past 24 hours, laboratories have reported 96,894 specimens for a total 16,258,348. As of last night, 2,469 individuals in Illinois were reported to be in the hospital with COVID-19. Of those, 520 patients were in the ICU and 270 patients with COVID-19 were on ventilators.

The preliminary seven-day statewide positivity for cases as a percent of total test from January 27–February 2, 2021 is 3.5%. The preliminary seven-day statewide test positivity from January 27–February 2, 2021 is 4.5%.

A total of 1,583,425 doses of vaccine have been delivered to providers in Illinois, including Chicago. In addition, approximately 496,100 doses total have been allocated to the federal government's Pharmacy Partnership Program for long-term care facilities. This brings the total Illinois doses to 2,079,525. A total of 1,094,135 vaccines have been administered in Illinois as of last midnight, including 175,900 for long-term care facilities. The 7-day rolling average of vaccines administered daily is 45,787 doses. Yesterday, a total of 65,166 doses were administered.

If all the mitigation metrics continue to improve, Region 4 will move into [Phase 4](#) of the Restore Illinois Plan on Thursday, February 4, 2021.

\*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered.
